Freight and transportation	5700-5799	
Temporary staff	6800-6899	
Licence fees, royalties	6910-6919	
Total costs -		

Insurable Gross Profit of the Insured Business, 12 months =

3. Forthcoming insurance needs

In determining the forthcoming insurance needs, the calculated insurable gross profit should be adjusted in relation to expected increase or decrease during the indemnity period.

Indemnity period: ☐ 12 months ☐ _____ months

The sum insured should in the event of a claim be equal to the insurable gross profit which the business should have given during the period equivalent to the indemnity period's length. The Insured is responsible for the choice of the sum insured

Sum insured

* = BAS accounts refers to EU BAS 1997 or later

** = For accounts 3980 – 3999, report only insurance indemnification for goods and/or goods in stock.
